

How is my child doing? New reporting arrangements for parents

At West Ashted we are committed to helping children to achieve as much as possible. In order to help us to do this we use an on-line, cloud based system called Target Tracker.

For each child we set an end of year target for reading, writing and maths. In Years 1 and 2 this is based on what they achieved in the Early Learning Goals in Reception. For Juniors it is based on what they achieved in the Key Stage 1 assessments in Year 2.

For each child we are measuring their **progress** towards that target

-That is how much they have improved over the course of a term or a year

And their **attainment**

-That is where they are currently compared to their end of year target

Target Tracker sets out what children need to achieve by the end of each school year in bands of statements or targets.

As children's learning develops, teachers highlight the statements which reflect what each child can do.

Every half term teachers use the statements to make a judgement on children's current attainment. This is recorded as a step.

Each year we aim for each child to make at least 6 steps of progress.

To keep you updated on progress, we will be sending you a summary report for your child/children at the end of each term. Here is an example of the information we will be providing – please note: the target tracker system isn't necessarily the easiest to understand and has standard automated reports which we can't manipulate but we hope the annotations below will make sense.

This is an assessment for a child in Year 4:
